CHECK FOR GAS LEAKS

⚠ DANGER

Do not use an open flame to check for gas leaks. Be sure there are no sparks or open flames in the area while you check for leaks. Sparks or open flames will result in a fire or explosion, which can cause serious bodily injury or death and damage to property.

You will need: a soap and water solution and a rag or brush to apply it.

- A) Mix soap and water.
- B) Turn on the gas supply at the source.
- C) Check for leaks by wetting the fittings with the soap and water solution and watching for bubbles. If bubbles form, or if a bubble grows, there is a leak.
- D) When leak checking is complete, turn gas supply off at the source and rinse connections with water.

Check:

- A) Side burner pipe fitting-to-side burner cup (1).
- B) Side burner pipe fitting-to-side burner valve connections (2).

⚠ WARNING: If there is a leak at connection (1 or 2), retighten fitting with a wrench and recheck for leaks with soap and water solution. If a leak persists after re-tightening the fitting, turn OFF the gas. **DO NOT OPERATE THE GRILL.** Failure to follow dangers, warnings and cautions contained in this Instruction sheet may cause a fire or an explosion resulting in serious personal injury or death as well as damage to property. Contact the Customer Service Representative in your area using the contact information on our web site. Log onto www.weber.com.

- C) Side burner quick-disconnect connections (3).
- D) LP: Regulator hose-to-cylinder connections (4).
- E) NG: Hose-to-quick-disconnect gas line connections (5).

⚠ WARNING: If there is a leak at connections (3, 4 or 5), turn OFF the gas. **DO NOT OPERATE THE GRILL.** Failure to follow dangers, warnings and cautions contained in this Instruction sheet may cause a fire or an explosion resulting in serious personal injury or death as well as damage to property. Contact the Customer Service Representative in your area using the contact information on our web site. Log onto www.weber.com.

When leak checks are complete, turn gas supply OFF at source and rinse connections with water.

⚠ WARNING: Make sure all parts are assembled and hardware is fully tightened before operating the grill. Your actions, if you fail to follow this Product Warning, may cause a fire, an explosion, or structural failure resulting in serious personal injury or death as well as damage to property.
